

W E S T C O A S T
Cosmetics, Inc.

Thank you for reaching out reaching out to West Coast Cosmetics, Inc. and your interest in our company!

West Coast Cosmetics, Inc. is a private label custom formulator and contract manufacturer and filler of quality color cosmetics, and skin care products. West Coast Cosmetics Inc. is **ISO 9001:2008 Certified** and **EU ISO 22716 Certified** as well as being **Registered with the FDA for Cosmetics Manufacturing and OTC drug products.** All certifications are current and are in good standing.

All packaging/containers and labels for finished products are supplied by our clients; West Coast Cosmetics, Inc. **does not supply cosmetic components/packaging,** however we can direct you to component and label suppliers.

When **developing custom formulations,** a sample or target product (when possible) is requested; this will help reduce the time needed in research and development, and will provide our lab a direction to achieve your private label product. We have a large library of base formulations from which to **create** and **develop custom blends** for our clients, however, **we do not carry stock products or formulations , therefor no** (off the shelf products).

West Coast Cosmetics, Inc. charges a minimal Lab fee of \$1,800.00 per product type, up to 8 different shade developments. A total of 3 rounds (if needed) of submissions are presented for customer approval. If after the 3rd submission, we have not received a final formula approval, then we will evaluate, with the client, how close are we to a final approval, and how much more lab time will be needed to achieve the approved formula and determine if additional lab fees will need to be assessed.

West Coast Cosmetics minimum orders are 2,000 units for (powders) and 3,000 units for (liquids) per shade. Cost per unit, are depended on 3 factors; (1) Final client approved formula cost; (2) Scope of labor needed to complete a finished unit (BOM), and (3) Total units ordered per shade.

Thank you again, for your interest and inquiry into our company. I hope that West Coast Cosmetics Inc. can be of service to you and your organization. For more information on our company, I invite you to please go to our website www.westcoastcosmetics.com , or call our office at (818) 349-8510.

West Coast Cosmetics "Working to Build Better Brands".

Sincerely,
Steven F. Csiszar, President
